Our Bottom Line is Helping Yours

Serving Connecticut...and Beyond!

What is cthaunts.com?

Paranormal tourism is an untapped market in Southern New England. We started this innovative free service to help local non-profits and businesses increase their bottom line.

We developed a website that was designed to allow businesses and non-profit organizations to easily connect with very interested customers.

The website allows you to showcase your location and your products and services on an additional platform and a blend of social networking sites.

It is free publicity and free non-traditional advertising!

Much More than a Website!

The website is only part of what we offer .

Free Publicity: We will use a blend of techniques including traditional press releases as well as newer platforms such as social networking sites.

Free Support: How do other locations earn extra money with their paranormal guests? We can tell you how. We will be happy to show you some options and case studies. We can also lend a helping hand during a special event relating to paranormal events. We can talk about our findings, about general paranormal topics, or even help conduct a ghost tour or investigation.

Free Education: We can help answer questions that you or your staff may have. Do you have high turnover because of the paranormal events? We can help educate you or your staff so that turnover improves. We can even help train you how to ghost hunt yourself so you can

Other Services: Of course you do not have to be listed on our website for us to help you. We can conduct investigations at your location if you just want to find out what is going on. We can also attempt to remove paranormal entities if you just want a bit of peace and quiet. Visit www.manchesterparanormal.org to learn about what other free services our group offers.
